

[Golf Club Head]

Abstract

A golf club head (20) having a body (22) with a front wall (30) with an opening (32) and a face component (40) is disclosed herein.

The face component (40) has a striking plate 41 and a return portion 43. The return portion (43) creates a sandwich structure (70) with edges (75 and 77) of the body (22). The body (22) is preferably composed of a light weight non-metal material. The golf club head (20) preferably has a volume between 300 cubic centimeters and 600 cubic centimeters. The golf club head (20) preferably has a mass between 105 grams and 300 grams.
